To navigate these complexities effectively, a systematic and comprehensive approach is necessary to record data accurately and timely resulting in identification of patterns in combat trauma, checking effectiveness of medical interventions, and helping in research and policy decisions.
5.	Aim and Scope Purpose incl utility, beneficiaries and tgt users	**NCCTR** is being dev by Northern Comd Sig Regt (NCSR) for recording combat trauma related database for Northern Comd Theatre which will offer a structured platform to document, analyze, and disseminate critical data pertaining to combat-related injuries sustained in the line of duty to both med and adm ech at the same time.
6.	To be hosted on internet/ADN with brief justifications	ADN
7.	Being devp in house or through IT funds	In-house
8.	Usability of proposed appls by other Arms/services/org/est	PAN Indian Army
9.	HW and IT infrastructure reqd	Sw can be hosted on ADN PC, hence no addl Hw/ IT infra is reqd for the same. The sw is devp using open source appln such as MySQL and PHP.
10.	Brief details of the content of the proposed SW appl	MySQL based database containing detls of patient evac from place of incident to tertiary care centre
11.	Endorsement by Head of Branch/Svc/Fmn	Yes
12.	Details of user base	Medical Echelons of AMC

Additional details (Optional in Pre Apvl Stg: Mandatory in Post Apvl Stg)		
13.	Envisaged cost of entire proj license fees and maint	Will be hosted on existing server License fees and maint - No Cost
14.	Projected Date of completion incl maj timelines	2 Months
15.	Brief details of Sw platform and teach stack proposed for devp of appl incl op sys dependence (if any)	PHP, JAVA Script, CSS, HTML, APACHE Server
16.	Brief details of proposed network and bandwidth reqmt	ADN (As per ADN Network)
17.	Brief details of OS and Sys sw requirements	Windows Server 2022 std
18.	Brief details of proposed data security measures incl backup of data	24 TB NAS
19.	Brief details of Database engine to be used in the appl	MY SQL (Ver 8.0.36), PHP (Ver-8.3.2), Php MyAdmin (Ver- 5.2.1)
20.	Details of proposed architecture-Centralized/Federated/Hybrid	Nil
21.	Details of proposed architecture and COTS SW proposed to be utilized	Nil
22.	Brief details of proposed utilization and Public Key Infra (PKI) and Iden and Access Mgt(IAM)	Nil
23.	Technological dependencies	Nil
24.	Database reqmts	MYSQL (Ver-8.0.36)
25.	Enhancement/Upgradation (incl patch mgt/SW updt procedure and mechanism	As per Requirement Upgradation will Possible Manually
26.	Details of licensing if any	Nil
